DETAILED ACTION

Allowable Subject Matter

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Referring to claim 1, the Lee et al reference (US Patent Pub. 2002/0012405 A1) discloses a receiving unit for receiving external audio signals; a first audio-signal amplifying unit having its input end coupled with the output end of said receiving unit for amplifying the output signals of said receiving unit; a second audio-signal amplifying unit having its input end coupled with the output end of said first audio-signal amplifying unit for amplifying the output signals of said first audio-signal amplifying unit; a peak-detecting and inverting unit having its input end coupled with the output end of the second audio-signal amplifying unit for detecting the signal peaks and the inverting output thereof (fig. 28). The Lin et al reference (US Patent Pub. 2005/0157626 A1) discloses switches (fig. 3). The Lee et al and Lin et al references taken alone or in combination, do not disclose, teach or fairly suggest an audio-signal detecting device which comprises a first amplifying unit, second amplifying unit, a second peak detecting unit, a delay unit, a 3rd switch and the detailed circuit interconnection among these as recited by independent claim 1. The aspects as summarized above are neither anticipated nor obvious by the prior arts of record.

Claims 2-7 and 9 depend on claim 1, claim 8 depends on claim 7 which depends on claim 1, claim 10 depends on claim 9 which depends on claim 1 and claim 11 depends on claim 10.

Art Unit: 2615

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
